Short-Term Internship Program Application

Short Term Internship Program Overview

This program is tailored to individuals interested in a 3-month introduction to primate husbandry, behavior, and the daily operation of a non-profit primate sanctuary. It is an opportunity for individuals to train under experienced care staff and gain valuable skills and knowledge that will introduce them to a career in primate husbandry. This program is labor intensive and is suited for hard working, dedicated, positive, self-motivated individuals who don't mind a little dirt under their nails.

Program Goal

To encourage careers in animal care, advocacy, rehabilitation, and conservation.

Program Description

The PRC Short Term Internship Program is designed to immerse students, recent graduates, and those interested in pursuing a career with animals from across the U.S. and abroad in the daily operation of a nonprofit primate sanctuary. Our program provides a unique opportunity to participate in the routine care and ongoing rehabilitation of nearly 50 nonhuman primates in an environment that is focused entirely on their enrichment and well-being. PRC residents are never exploited for any reason, including exhibition, and are afforded lifetime care in a protected and secure environment. Our interns play a vital role in making our sanctuary successful at meeting our commitment to our residents.

Interns assist with the daily care of our residents, along with administrative tasks, fundraising, and special tasks. Duties include, but are not limited to, food preparation and sorting, cleaning of animal and human areas, and creating enrichment items for primates. Interns can expect to gain significant animal husbandry experience, learn about primate behavior, stress responses, and the rehabilitation process; gain a greater understanding of the issues facing primates and other animals in the modern world. The working environment is intimate and dynamic, and we encourage interns to be motivated, innovative and ask questions. Interns will have numerous opportunities to observe the animals and get to know them as individuals. However, interns will never have physical interaction with any of our nonhuman primate residents. Attempts to do so are grounds for immediate dismissal.

Program Qualifications

All sessions are competitive and have limited spots. Coursework in primatology, biology, animal behavior, or psychology is preferred but not required. Applicants must be currently enrolled students, recently graduated students, or currently pursuing careers or internships in animal care. A general understanding, interest, and concern for primate well-being is required. This program is labor intensive, so interns must be in good physical condition and be able to lift 50 pounds. Proof of negative TB test, Tetanus vaccination, and full Covid vaccination is required. Applicants must be at least 18 years old.

Program Term

Interns are required to complete a minimum of:

480 working hours (40hrs/week for 3 months) if you need on-site housing OR

240 working hours (20hrs/week for 3 months) if you do not need on site housing.

Intern shifts fall between the hours of 9:00am and 5:00pm. Interns may be asked to participate in afterhours fundraising activities or events.

Project Details

Interns at the PRC are required to complete an enrichment or fundraising project. Further details and assistance will be given to interns upon arrival from care staff to help plan a project.

- Enrichment projects involve the intern designing/researching an enrichment idea, and creating this item(s) during their time at the sanctuary. All enrichment projects must be submitted for approval in writing to the Executive Director by the 6th week of their internship. The Animal Care Staff will be available to brainstorm ideas for enrichment projects.
- Fundraising projects involve the intern planning or participating in an event to raise money/awareness for the Primate Rescue Center. Care staff will be available to help you come up with a creative idea if you choose this type of project and there are no other events already scheduled with which interns could assist.

Special Projects – Interns regularly approach us with ideas for research projects they have developed that they wish to pursue during their time with us. If you have a special project in mind, or one that is required by your school, please include a proposal on a separate sheet of paper. Please keep these guidelines in mind:

- Your project cannot involve filming
- It cannot cause any sanctuary residents stress
- Preference will be given to projects that benefit primate residents
- Work on your project can only take up a portion of your total internship hours
- You will agree to provide the PRC with a copy of your finished paper or presentation to use at our discretion (for example, in our newsletter).
